

ODEON Measurement workshop and Advanced course

Odeon A/S, DTU Science Park, building 381, 2800 Lyngby, Denmark, **09 –11 Sept 2024**

Contents

The *Measurement workshop* takes place on 09 September. It covers advanced measurement exercises, calibrations, combination of room acoustic measurements and simulations, and how to ensure high-quality measurements.

The *Advanced course* takes place on 10 and 11 September. It covers advanced simulations and auralisations, as well as how to optimize simulations with genetic algorithms. Moreover, thorough descriptions of the acoustical parameter list, the colour scales and the grid response are given. The special challenges in modeling of noise in restaurants including the Lombard effect, and modeling open-plan offices will also be dealt with. The auralisation part covers the set-up of a sound scape scenario with multiple sound sources.

For whom?

The *Measurement workshop* and the *Advanced course* are for persons who already have experience in the use of ODEON and who want to go deeper into the possible applications of the software. The course is a combination of demonstrations, hands-on exercises and discussion on specific cases.

Duration:	1-3 days, 09 – 11 Sept. 2024
Location:	Odeon A/S, DTU Science Park, building 381, 2800 Lyngby, Denmark.
Prerequisites:	Experience in the use of ODEON.
Instructors:	Mario A. Montoya Sandoval, Odeon A/S George Koutsouris, Odeon A/S. Claus Lynge Christensen, Odeon A/S (director).
Language:	All courses are held in English.
Registration deadline:	30 June 2024
Price:	(including all course materials, refreshments and lunch) Measurement workshop (1 day): EUR 600. Advanced course (2 days): EUR 1200. Prepayment required.

Information and registration

Odeon AS,
Attn. Gitte Freudendal
DTU Science Park, Diplomvej 381, DK 2800 Kgs. Lyngby Denmark
Telephone +45 88 70 88 45
Email: gf@odeon.dk
